## Provider Profile

---

Information provided by the provider describing their agency:

United Cerebral Palsy (UCP) of Eastern Connecticut was founded in 1947 by a dedicated group of local parents who were committed to developing supports and programs for their children with cerebral palsy. These parents brought awareness of supports and services needed to give hope for a better future for individuals with any disability, not just cerebral palsy. This was the corner stone for the development of a nationwide network of UCP affiliates who strive to ensure the inclusion of persons with any and all disabilities in every facet of society.

Programs and Services UCP provides:

- Adult Day Programs
- Extended Day and After School Programs for Children and Young Adults
- Supported Living Services
- Individual and Family Support
- Advocacy
- Information and Referrals - Answer questions, find resources and provide case management services

Day Programs with:

- Two individual site locations: Quaker Hill and Old Saybrook
- Spacious, bright, safe and cheerful environments for people with disabilities
- Emphasis on choice and self advocacy
- Transportation, community outings and social opportunities
- Volunteer projects, celebrations, learning opportunities and much more
- Ability to serve those individuals with more medical and physical disabilities

Supported Living Services:

- Traditional and unique arrangements with 24/7 hour available services
- Many individuals rent their own apartment in a large, integrated garden apartment complex in Groton with staff available in an on-site office. This proximity to staff and each other also offers impromptu socialization, activities, and friendships
- Health care coordination with UCP agency RN services
- Person centered planning - Develop working plans to meet every individual's need
- Family, friend and community supports work together in a team to maximize independence
- Assistance with daily living activities including but not limited to employment, finances, cleaning, cooking, recreation, transportation and social skills
- Provide advocacy as well as emphasis on self-advocacy for families, caregivers and individuals with physical and/or developmental disabilities

The mission of United Cerebral Palsy is to advance the independence, productivity and full citizenship of people with disabilities.
